STRATHCONA NEWS

BONDSMEN WILL LOSE DEPOSIT

The Sureties of Messrs. Deitz and Main to Have Their Bond Forfeited.

Strathcona City Council held a short special session Thursday evening in an abortive attempt to finish up the business that was left over from Tuesday night. Three out of the six aldermen were present. Alderman Elliott, perhaps the most regular of the board in attendance, and Aldermen Rankin and Hubert being the faithful ones, while Aldermen Crawford, McKinnis and McFarlane were the absentees.

The communication of Dr. Archibald with reference to the difficulties in connection with the securing of an isolation hospital, was referred back to the board of health.

In connection with reference to the boulevarding of Main street was referred to the Board of Works Committee.

The letter of the Street Railways Company asking for a thirty years' franchise was allowed to lie on the table until the regular meeting.

In answer to a question from the Mayor, the secretary-treasurer stated that the solicitor had said he would notify the bondsmen of Deitz & Main that their contract had not been fulfilled.

The sureties of the contractors are Messrs. Rutherford and John Walter, and the bond is for \$5,125, one-tenth of the price of the contract.

After a number of other matters, including the appointment of an auditor, had been discussed, it was decided to adjourn owing to the small attendance.

CITY TEAM WINS FIRST GAME

The first game of the Strathcona and Edmonton league football game took place Thursday night at the Agricultural grounds between the Strathcona City team and the Black-

man-Ker. The former had the game well in hand from start to finish, and won easily by a score of 4 to 0. The game was refereed by J. Raddler.

POLICE LOCATE YOUNG MAN

Several days ago the Strathcona chief of police received a letter from Mrs. Sailer, London, England, asking for information with reference to her son, George, who formerly worked at the City Jail, and who was one of the men who had not heard for some time. The police instituted inquiry and learned that he is now at the Marietta Hospital, where he has been for the past two months with typhoid fever. He is now recovering.

A serious accident happened to a horse belonging to William Smith of White Mud, a few days ago. Smith had come to the city to secure the services of Dr. Murphy, V.S., for a valuable mare, which was sent at his place. While coming out of the city, the mare was driven by P. Harris and Dr. Murphy's livery stable the mare was driving slipped on one end of a board and the other end, which was sharp, flew up and pierced the mare's flank. It was first thought that the animal could not live but a short time, as the flow of blood from the wound was tremendous, but Dr. Murphy succeeded in stopping the mare. After treating the wounded animal here the doctor drove out to Smith's farm and succeeded in successfully treating the mare so that she was able to get home.

The pulpit of the Presbyterian Church will be occupied tomorrow morning by Rev. Mr. Kerr and Rev. Mr. Jeffrey in the evening.

The Chief Consideration

In investing money the most important point is safety. Fortunes can be made by speculating in wheat, real estate or stocks, and fortunes can be lost in the same way. The wise man looks for something safer, even if it looks smaller. The advantages a savings bank account has over all other investments are its absolute safety and its unswerving steady growth. From One Day To The Other

MY WIFE.

She is so winsome and so wise,
She sways us at her will.
And oft the question will arise,
What mission does she fill?
And so I say, with pride untold
And love beyond compare,
This woman with the heart of gold,
She just keeps house for me.

A full content dwells in her face,
She is a queen in love with life.
And for a title wears with grace
The sweet, old-fashioned "Wife."

What though I toil from morn till night,
What though I weary grow,
A spring of love and dear delight
Both ever softly flow.

Our children climb upon her knee
And lie upon her breast,
And ah! her mission seems to me
The highest and the best.
And so I say, with pride untold
And love beyond compare,
This woman with the heart of gold,
She just keeps house for me.
—John Hewitt.

A DISTINGUISHED WOMAN LINGUIST.

An American woman, Elizabeth S. Colton, is said to be the greatest woman linguist in the world. She is at present in Canada pursuing her studies in Montreal.
Her ambition as a young girl was to become an opera singer, and with this end in view she went to London, and studied under Manuel Garcia, a noted teacher, who did not long allow at the remarkable age of 101. She had completed her studies, and was preparing to make her debut, with Theodore Thomas' orchestra, in Chicago, when she contracted a heavy cold which resulted in the loss of her voice. Miss Colton then turned her attention to the study of languages, and under her father's guidance she mastered Latin, Greek and Hebrew. During her sojourn in Europe she had the opportunity of learning the continental languages, she then went to Berlin to study Sanskrit, Chinese and Persian. In the Orient she acquired a knowledge of Syriac, Arabic, Assyrian, Pole, Avestan, etc. She is now complete mistress of more than forty languages.
Miss Colton, the young woman who was reported to be engaged to Prince Francis of Teck, is quite an accomplished actress. She was not born in aristocratic circles, but so many of her cousins and other relatives have married with persons of rank that she has a very good position in society, although, of course, she could not be engaged to Prince Francis.

SHE WOULDN'T LET GO.

Sylbi—"This is your first engagement, isn't it, dear?"
Claire—"Yes, and I'm going to take good care that it's the last."—Scraps.

PERFORMED A MIRACLE.

Her husband (angrily)—"I was a fool when I married you."
His wife—"Aren't you a fool still?"
"No, I am not."
"Then you should congratulate me upon my success as a reformer!"
—Bessie Munniss.

The bride, who is a very beautiful girl, wears a travelling costume of green cloth and was attended by her little cousin, Miss Inelot Penton. The best man was Mr. Scougall. A British Soldier Lawyer Speaks on Immigration in Calgary.

Calgary, May 23.—C. P. Walters, a barrister of London, Eng., and colonel of one of the London volunteer corps, was in the city yesterday on his way to Australia for a three months' trip. While in the city Mr. Walters was a visitor to the immigration office, board of trade and 100,000, where, in conversation with the Herald, he said of many interesting things regarding immigration to Canada and other matters of importance to the Dominion.
"There will surely be a record this year from England," he said, "as immigration to Canada is the whole talk in the mother country at present. Arrivals continue to come in all the time, and there are thousands of unemployed in London alone."
"Owing to reducing the army and the government works as Woodstock and Portsmouth has also greatly reduced to the unemployed. Coming off from Liverpool and London are full of immigrants, all of a most many type and it appeared to me that it was a pity England was losing in large numbers such healthy looking men, as I am sure they could be of great advantage even in the old country."

"When I left England," said Col. Walters, "the colonial premier conference was the main topic of conversation and General Borden appeared to be the attracting figure."
"Someone the home government is not want to see the Boers with a large standing army, but General Borden assures them that they can be demobilized. He thought that they could be demobilized to advantage, and during the late Boer war the lack of discipline was their undoing, but if they were given good training they would be good soldiers. General Borden also asked for a volunteer force, something after the kind of other colonies."

"The proposals made by the home government were to be placed before the premiers soon after they left Liverpool and it accepted would give the imperial army a strength roughly estimated as follows:

Canada	45,000
Australia	92,000
Cape Colony	9,000

THE INSURANCE COMMISSION AND ITS CRITICS.

A number of party publications and insurance journals, starting under the revelations of the Insurance Commission's inquiry, are seeking to ridicule the facts and suggested reforms of the report of the commissioners instead of seriously deciding how much of the proposed legislation they regard as acceptable and how much is seriously open to debate. It is no reflection on the commission to regard its judgment as not infallible, nor to admit the necessity of modifying the legislation submitted as the result of its inquiry. Unreasonable attacks upon the commissioners is not the best way of obtaining the best results for the insurance companies and the public.

The criticism raised does not impair the facts of the judgment nor does it seriously attempt to refute them. It would be justified if the commission had failed to discover grave irregularities and possibilities of delusion in present day insurance. The investigation certainly has shown the need of reforms and restraints, and in devising them and embodying them in legislation we should have the best judgment and co-operation of insurance experts, of legal counsel and of the ministers whose duty it is to safeguard and conserve the public interests. Whatever insurance men may think the public will universally agree with the suggestion of the Commission that all the companies should use a uniform policy. The idea that prompted the commission in this question was the possibility of deception in the wording of a policy, and the danger of causing the policyholder to believe he was receiving favors and privileges not actually guaranteed. Such delusions have been perpetrated upon the innocent. The safety and protection the public enjoy in this regard at present is the competition of agents who are keen to point out deception in a policy issued by a rival. Of course this question raises the issue of the safety of restriction and the dangers of freedom. Too much restriction will hamper the insurance business with obstruction and red tape, while too much freedom with its incentives to progress, will put a premium upon tempting others that cannot be realized. The balance between freedom and restraint must be adjusted with both interests under consideration. There is need for the utmost harmony and goodwill between the insurance companies and the government to achieve the full benefit of the report in this respect.

The great army of policyholders have little interest in the personal recriminations that have been hurled at the motives of the Commissioners. The man in the street cares little whether Shepley is called prosecuting counsel, or detective, or whether the Commissioners are called inquisitors or judges. They were appointed to investigate, and they investigated. They went the whole round mark" it was Denmark's fault. That is what the public wanted to know. Quite naturally those who were caught yellow-banded with the guilt of others sticking to their fingers represented the investigation which threw their misdeeds into the limelight of cross-examination.

It is worthy of notice in passing that the findings of the Insurance Commission in New York have been received in a different spirit and have had a salutary effect upon insurance activity in the United States. It made Hughes Governor of New York state, but then, it must be kept in mind that he stood in a different relationship to the inquiry and finding of the Commission than certain Tory politicians in the Canadian Parliament.

THE CITY HOSPITAL BY-LAW.

On the third day of June the ratepayers of Edmonton will vote upon a by-law to raise \$50,000 to be expended upon a new city hospital for some years private enterprise and the public spirit among our citizens has kept the present city hospital alive and considering its accommodation it has accomplished a great feat. The general hospital and misericordia have

also done good work and been well conducted, but the hospital needs of Edmonton have entirely outgrown the present hospital accommodation and the present plan for the city to contribute \$50,000 to what will be probably a \$150,000 hospital, and to virtually take control of it and conduct it as a city hospital, should meet with general approval.

The city of Toronto has dealt generously with the Toronto General hospital with the result that they have established a place in that city which is reclaimed many lives from the ravages of disease and given that hospital the equipment and the advances it required, and now a new Toronto general hospital is to be built which both the city and the provincial government are contributing. The government is making a grant so as to make it the Provincial Medical hospital. Edmonton being the capital of Alberta the city hospital is properly equipped will be made in June to the medical college here.

If the city contributes generously to this hospital then the unfortunate citizen who meets with an accident or is afflicted by an ailment will have place to go to with the knowledge that it is supported by the city and a citizen he has some claims upon whether able to meet the charges or not. The hospital by-law certainly deserves the support of Edmonton's citizens.

CANADIAN OF CANADIANS

An Appreciation of Sir Wilfrid Laurier in the English Magazine Canada.

All Canadians do not approve of the politics of Sir Wilfrid Laurier and when some vexed question of domestic policy is being thrashed out at Ottawa very hard things are sometimes said against him in the opposition press. But even the bitterest of his opponents have no bitterness for the man himself, whose sweet reasonableness and fine, open, and singular gift of saying the right thing at the right time in the right way have earned the affectionate regard of every citizen of the empire. None of his predecessors, not even "Sir John A." or Sir John Thompson, of any of our high commissioners, has ever been such an ideal representative of the twofold Canadian nation. In the eyes of the Anglophone British he does more than represent Canada; he is Canada. As in London, so in Paris—he is admired as a man of the world, combining in his person all the characteristic gifts of both the English-speaking and the French-speaking types of Canadian. During his present visit to the mother country he has made many speeches, none of them very long and on each and every occasion he has contrived to say just what every Canadian present would like to have said, had the opportunity and the orator's genius been given to him. At the great luncheon at Lord's on Saturday, in which a serene smile lit up his face, a good fight against the two teams of the Capitals, his speech consisted of four sentences, and each of them went straight to the mark. Another instance of his power of setting forth happy thoughts in happy words occurred when, he returned thanks in Westminster Hall for the hospitality of the Mother of Parliaments. He had to follow Sir Henry Campbell-Bannerman and Mr. Haileur, both of whom are admirable speakers on ceremonial occasions who speak in a stately and dignified manner, but his speech lost nothing by comparison with the more elaborate efforts of his predecessors. What could be better than his description of the time-honored hall as "the cradle of British freedom, in which the British constitution, to use the expression of Tennyson, has broadened down from precedent to precedent, until it now embraces a world-wide empire?" At times it is forgotten that all the statesmen of Greater Britain, Sir Wilfrid has the widest and most comprehensive of the long political history of the mother country, that in the opinion of the ablest students of the evolution of parliamentary government, he is equal in this respect of any British statesman now living. "I would say," he remarked, alluding to his early studies, "that the first time I visited this hall, and especially those other buildings of the two houses, the whole of my youthful reading came back to me with an intensity never expressed before. It seemed to me that I saw and heard those masters of statecraft and eloquence—Fox and Pitt, Burke and Sheridan, Canning and Peel, O'Connell, Disraeli and Gladstone."

BETTER TARIFF ARRANGEMENTS

The Premier on the Contingent Workup in Canada's Interests.

Paris, May 23.—The Canadian Premier, Sir Wilfrid Laurier, arrived here last night from London and spent the day paying official visits. He called on Premier Clemenceau, Foreign Minister Fichon and the British Ambassador, Sir Francis Bertie, and will be received in audience by President Poincaré tomorrow. The purpose of Sir Wilfrid's visit to the continent is to see if it is possible to negotiate mutually more advantageous tariff arrangements between Canada, France, Italy and Belgium. The object, however, has not yet been reached at the French foreign office, so Sir Wilfrid desires the presence of Hon. Mr. Fielding the Canadian Minister of Finance, and Hon. Mr. Brodeur the Canadian minister and fisheries, who arrived here Saturday. The plan is to proceed to Rome, May 28 and see what can be accomplished there. Turning to Paris about June 1, when formal propositions will be submitted to France and Belgium. Premier Laurier will call home July 1.

Recent sales have been made at steadily advancing prices and additional offers are under consideration. Ogilvie's sales to the Orient have now reached 100,000 sacks.

Thief Out Live Wire.

Hamilton, Ont., May 23.—A nifty thief appeared in the police court this morning. He was Harry Smith, an electrician, and the charge against him was for stealing 700 feet of copper feed wire from the H. D. & R. Electric Co. Smith climbed a pole east of the city limits and cut the wire while the current of several hundred volts was passing over it. He projected himself by the use of a pair of rubber gloves. He pleaded guilty to the theft charged and was remanded for sentence.

CONGESTION OF FREIGHT SERIOUS

In Montreal, Not Entirely Due to Strike. Expansion of Business.

Montreal, May 23.—The congestion of freight has assumed a serious aspect in Montreal at the present time. The congestion is in the yards of the railway companies and along the wharves affecting coal and foodstuffs. While the strike had some effect upon the situation, the condition is largely due to the rapid increase in business, present facilities being inadequate to clear things. There are at the moment 500 loaded cars in the C. P. R. yards, while there are 1,000 cars in the Grand Trunk yards. The wharf is lined with freight to such an extent that some of the ships have been sent to Hochelaga in order to find room to unload. Meanwhile the freight is accumulating and shippers are at present unable to keep their goods moving and extend the matter from assuming the proportion of a blockade.

EDMONTON CAPS WON FROM S'CONA

MEDICINE HAT WON BOTH GAMES

In Game in Strathcona, Score 6-3. Edmonton looks to Have the Goods.

Edmonton defeated Strathcona in the first lacrosse match of the season yesterday afternoon by a score of 6 to 3. The game was not hot, but it was a good exhibition of lacrosse, and showed that both cities have line-class lacrosse players and teams worthy of their support. At no stage of the play were Edmonton's chances in danger. The players did not better themselves to their limit, but contented themselves with the comfortable lead secured early in the game. They showed what they could do once in a while and look to have the best team that ever went on the warpath for the Capital. Their combination work and passing was the winning article all right. It would be hard to pick the best of the bunch. It might be said in a good hand contest. The new-comers, Turner, McCarry and McKinnon, can travel with the fastest and add greatly to the strength of the team. The old reliables are faster than ever. "Gladdy" Thompson, alias and Leask played lacrosse with a vengeance, while Jones, Harris, Kelly, Shaw and Cross all played fast. Captain Powers had a goal, a dandy and made some half-raising points. Captain Powers had a surplus of players and was content with watching the game from the side.

The outside attractions proved too strong for some of the Strathcona men, and the full team was sent. This seriously affected their showing and chances for a win. The team have a good lot of players, and with the regular line-up of the night have been changed. Sheppard and Dixon, of the Capitals, helped to fill up the line, and both played a game. Dixon getting two of the Strathcona goals. The fastest, and pointed, is a crack defence man, and pulled Strathcona out of many a hard place by clicking and interfering the swift passes of the Edmonton team. Sheppard, in a hard position to pass, generally stopping his man. Laiffair and Jones of the Mains played well. The others played hard, effective game, but Edmonton had it on them in team work.

This is how they lined up: Edmonton—Shanklin, 1st; Leask, point; McCarry, cover; Shaw, Gals, outside house; Thompson, inside house; Strathcona—Benton, goal; Jamieson, point; Herby, cover; Main, Grundy, Edmonton, defence; Sheppard, centre; P. Main; 2nd; Laiffair, 2nd house; Clarridge, 1st house; Armstrong, outside house; Dixon, inside house.

Referee: Dr. Buggins. Umpires: Mitchell and Jackson. Timekeepers: Kemp and Hill.

The Play.

First quarter—Leask secured, made a great run, passed to McKinnon, who ran through a deluge of sticks, but was not high. A few swift runs, and Leask and Thompson slammed the ball into the net. Edmonton was playing a great game, and Harris scored on a pass from Thompson. Strathcona got possession and a mix-up started. Edmonton goal. The ball travelled behind the nets, and on the pass out Dixon scored for Strathcona. The next was easy for the Capitals, and Thompson scored in a minute. Strathcona fell down on a good chance. Edmonton 3, Strathcona 1.

The second quarter was the fastest of the game. Edmonton started in with a rush. Their combination was great, and Turner added another. McCarry starred by a dodging run through the Strathcona line. A few lightning passes and Jones was rewarded by the bulging of the nets. Leask worked Turner in the draw, and a goal shot by Dixon. Just as show there was no hard feeling, Harris put in another for Edmonton. They looked promising for Edmonton when the whistle blew for half time. Edmonton 5, Strathcona 3.

There was nothing doing this quarter. Strathcona was playing the game, and Shanks was called to save several times. He was cool as ice and kept his head, stopping some hot ones with ease. Clarridge had an easy chance, but shot poorly. Edmonton made a few rushes, but all were blocked and Benton kept them out, and no scores resulted.

Strathcona started the fourth with a determination to win. They scored in a minute by a mix-up in the work, in which Laiffair, Sheppard and Main were conspicuous. Edmonton had an opening, but Kelly missed. Benton got a call, but saved. Houston was playing fast, and was promising rushes effectively. Edmonton tried to notch another, and kept "Scam's" defence busy for a while. Time was called with the teams tired for possession in midfield. Score—Edmonton 5, Strathcona 3.

It was a beautiful day for lacrosse, and a good crowd witnessed the game.

FOOTBALL.

The second match of the International football schedule was played this evening on the Exhibition grounds at seven o'clock between the Californians and the "Pauls".

The Thursday evening football match between the International "Pauls" and Edmonton resulted in a 2-2 tie. All Saints had the better of the play at the start and at half-time were leading 2 to 1. The game was a good article of football, and most of the players showed some class. W. Woods refereed, and Messrs. Madden and Short acted as line-men.

Trimmed White's Bunch Thursday 5-1 And Victoria Day 3-1

Edmonton lost both Thursday and Friday to Medicine Hat. Thursday's game the Hat won on its merits, but yesterday's game was a hard-fought loss for Edmonton. The Beacon's contingent hit others than the Hat, but the bunching of three errors in the third lost the game for Edmonton. Calgary won both games from Lethbridge.

Edmonton 1, Medicine Hat 1. Medicine Hat, May 24—Pete seems to smile on Medicine Hat, for they won today's game with only three hits off Crat by a score of 3 to 1. Edmonton took eight hits off the Hat's crack twirler, but they were scattered so as to do no good. Crat was certainly unlucky. Three errors were made in one inning on apparently easy chances, and with two hits off the Hat sent three runs across the plate. Wesler and Grimes made a miserable error in the fourth inning, but the Hat sent a fly in left field, but later, Crat was fortunate after the third inning. Edmonton and men on base every inning but luck was against them. In the fourth inning, with bases full, Wheeler cracked out a long line drive right at the centre fielder. From either side and the same time would have been clear. Grimes scored Edmonton's run in the first inning. Blawie will pitch tomorrow. While expects to be in the game next week, and will pitch on Sunday. Score by innings—

Edmonton 100000000-1 3 4
Medicine Hat 00000000-3 3 2
Edmonton 10, Medicine Hat 3.

White and his all-star team were up against it good and hard today, when the Hat won better McCarry out of the box by hitting at opportune times in two innings, and then went after McCarry even harder, scoring five runs in the four innings in which they played.

The score does not indicate the hard hitting which was done, the field being credited with many errors. Edmonton got one run in the first inning, but Ford cleverly stealing home while Wesler was conducting a kick around and reached out at second. Only three Edmonton men faced the pitcher in their half of the fifth, and none of them reached first. The game was then called on account of rain. Ford made a wild throw to second in the third inning, which on luck hit Benton, and finished the game for the Hat.

McCarry's exhibition was bad. He walked men after man, the ball coming off apparently affecting his control, and taking out in the third. Twice Edmonton had the bases filled with only one out, but the hit that was needed was wanting. The score was:

Edmonton 00010-1
Medicine Hat 00012-5
Batteries: McCarry, McQuicken and Ford; Pennington and Henry; Clarridge; Priest.

WILL RESTRAIN FREE SPEECH

Russian Premier Says Revolutionary Addresses in Parliament Must Cease.

St. Petersburg, May 23.—Premier Stolypin caused a sensation in the lower house of parliament today by unexpectedly announcing that a serious conflict existed between the house and government, and scored an ineffective point, by showing that the Agrarian committee of the house had proceeded to solve the Agrarian problem without consulting with any other part of the government. The premier, concluding by announcing that the forcible appropriation of land could not be permitted, and warning the house that speeches exciting the peasants were beginning to cause a dangerous agitation in the provinces which the government was determined to repress.

Continuing M. Stolypin characterized the constitutional Democratic Agrarian program as being milder and more gradual than that of the radicals; but he said the same principle, the undermining of the rights of property, was hidden at the bottom. He heartily welcomed the position of the Constitutional Democrats to let peasants decide whether communal ownership should be maintained or abolished, although he scouted the argument that the forcible appropriation of land was inevitable, pointing out that the present government reserve of land was sufficient to appease the land hunger.

In conclusion the premier warned the house that some of the speeches made had excited the peasants, and were beginning to cause a dangerous agitation in the provinces which the government was determined to repress, adding: "The radicals long for a mighty upheaval. We yearn to build up a mighty Russia."
